1 Investment properties relate to the German portfolio (EUR 5,368.5m; YE 2022: EUR 6,078.2m) and the Polish portfolio (EUR 566.8m; YE 2022: EUR 491.7m). Reduction in the German portfolio mainly refers to the valuation loss in FY 2023 of EUR 731.6m. Growth in Poland by EUR 75.1m is primarily the result of the completion of further c. 1,300 rental units.

2 Real estate inventory contains Polish build-to-sell assets of EUR 560.1m (YE 2022: EUR 659.2m) and assets dedicated to sell in Germany of EUR 66.6m (YE 2022: EUR 55.0m).

3 Increase in other non-current assets of EUR 72.5m is mainly driven by new joint ventures within the Polish sales business.

4 Equity reduction of EUR 343.2m is mainly coming from the net loss for the period of EUR 410.9m and from non-realised gains from f/x translation (accounted for within equity) of EUR 83.6m.

5 The reduction of current financial debt was mainly driven by payback of promissory notes in Germany (EUR 110.5m) as well as of bonds in Germany and Poland (EUR 189.2m).

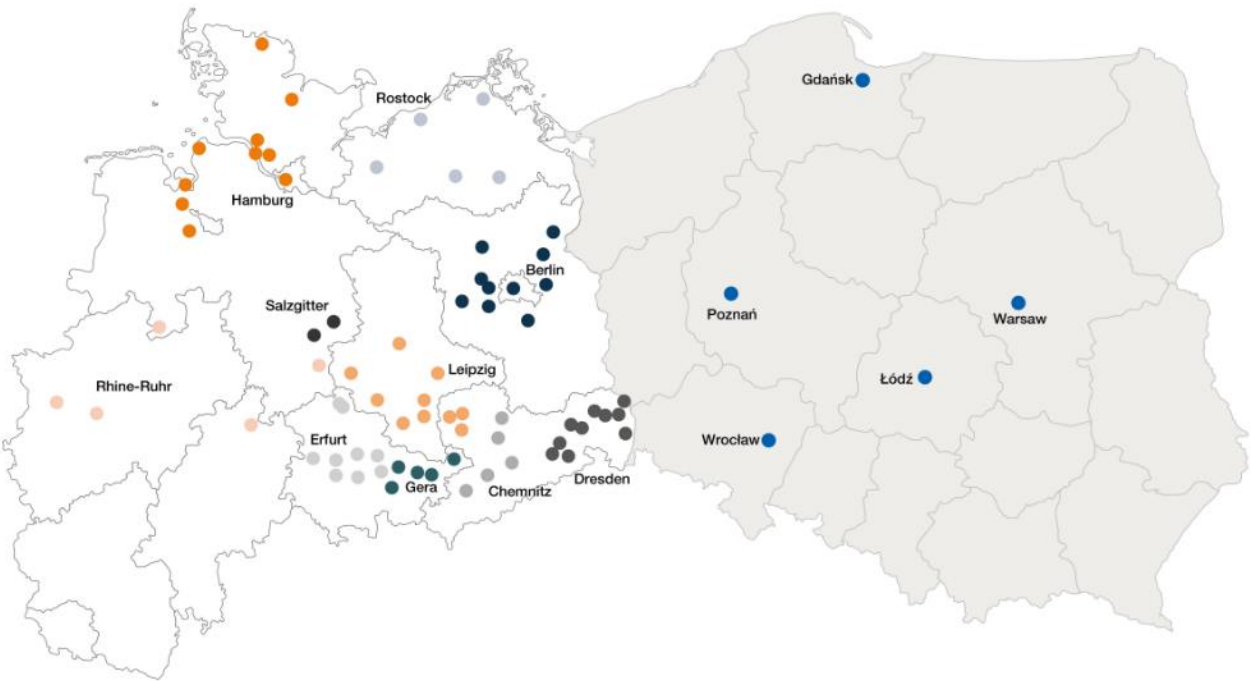

6 Other current liabilities mainly contain prepayments from customers in Poland of EUR 171.6m (YE 2022: EUR 179.4m) and other short-term liabilities, e.g. to suppliers.

# Overview of Polish residential rental market

After exceptional high growth in FY 2022, rents have stabilised in FY 2023

- Throughout 2023, there was a high demand for apartments for rent throughout Poland. A sharp increase in rents, which was observed in 2022, was mainly due to refugees and companies relocating workers from Ukraine, aggravating the supply demand imbalance
- Overall demand for apartments remains high, mainly due to the low availability of flats
