TAG Immobilien AG

Update following rating upgrade. Outlook remains stable

Summary

On 24 May 2024, we assigned a long-term issuer rating of Baa3 to [TAG Immobilien AG](#) (TAG) and upgraded its short-term issuer rating and its commercial paper programme rating, both to Prime-3 (P-3) from Not-Prime (NP). The outlook remains stable.

The rating upgrade reflects TAG's continued strong operating performance in the German rental business, and Polish development and rental businesses. TAG has a prudent financial policy, which is focused on cash preservation and leverage reduction in a difficult operating environment over the last two years, because of rising interest rates. The upgrade takes into account the company's strong commitment to operate its capital structure in line with the requirements for an investment-grade rating, and our expectation that the company will diversify its funding sources and will enhance its unencumbered asset base with high-quality income-generating rental properties. As of March 2024, TAG further reduced its reported Loan-to-Value (LTV) to 45.6% from 47.0% in December 2023, supported by ongoing disposal activity that has resulted in net cash proceeds of €333 million year to date since 2022, and the cancellation of dividend distributions on earnings generated in 2022 and 2023.

The ratings are primarily restricted by the company's high reliance on secured lending and its reduced unencumbered asset base in Germany; the sharp increase in the marginal cost of funding across the sector compared with the in-place cost of debt; and the company's exposure to development activities in Poland, and the inherent cyclicality of the homebuilding business, which could weigh on growth and earnings' stability of the company's Polish portfolio and its self-financing capabilities. The growing geographical presence in an unregulated residential market compared with Germany could introduce earnings and valuations volatility. However, this is balanced by the solid economic backdrop of Poland and strong demand for residential-for-rent units because of a structural undersupply.

Exhibit 1

We expect TAG's credit ratios to remain broadly stable

Moody's-adjusted debt/gross assets and fixed-charge coverage [1]

[1] All ratios are based on adjusted financial data and incorporate our Global Standard Adjustments for Non-Financial Corporations.

[2] This represents our forward view, not the view of the issuer.

Sources: Moody's Financial Metrics™ and Moody's Ratings forecasts

Credit strengths

- » Dominant share of business in the stable and regulated rental housing activities in Germany, generating stable cash flow from a portfolio that is diversified across several German regions, with limited correlation to GDP
- » Solid access to economically efficient German long-term bank debt
- » Solid performance of its Polish business, benefiting from strong demand
- » Moderate debt/gross assets and solid fixed-charge coverage
- » Strong liquidity and refinancing risk management, with dividend suspension and use of disposal proceeds to reduce leverage

Credit challenges

- » Pressure on the sector to prevail, particularly in a scenario of sustained subdued property transaction volumes
- » The sharp increase in the marginal cost of funding across the sector
- » Reduced unencumbered asset base in Germany ahead of growing refinancing needs
- » The inherent cyclicality of the homebuilding activities, which could weigh on the earnings outlook of its Polish business and the capability of this business to become cash-generative

Rating outlook

The stable outlook reflects our expectation that over the next 12-24 months TAG will continue to deliver solid operational results, combined with prudent financial risk management, including further progress in reducing the company's defined loan-to-value ratio below 45%, in line with TAG's financial policy, while bringing down Moody's-adjusted net debt/EBITDA toward 10x. We expect the fixed-charge coverage ratio to remain well above 3x, despite higher longer-term interest rates for upcoming debt maturities.

The outlook further takes into account the company's firm commitment to a conservative financial policy focused on retaining cash to support the internal funding of its growing Polish rental platform and homebuilding business. This disciplined financial stance minimises liquidity risk and helps deleverage the capital structure on the back of conservatively funded, value-accretive investments in Poland.

This publication does not announce a credit rating action. For any credit ratings referenced in this publication, please see the issuer/deal page on <https://ratings.moody.com> for the most updated credit rating action information and rating history.

Factors that could lead to an upgrade

A rating upgrade may occur if:

- » TAG improves its financial flexibility by significantly increasing a pool of high-quality unencumbered investment properties, in both of its main jurisdictions, that offer sufficient coverage for unsecured creditors
- » TAG improves its diversification of funding sources across secured and unsecured debt while maintaining a fixed-charge cover above 3.0x
- » Moody's-adjusted debt/assets remains well below 45% and Moody's-adjusted net debt/EBITDA is sustained well below 10x, aided by a growing earnings contribution from a stabilised residential rental business in Poland
- » TAG maintains an unchanged favourable earnings outlook for its Polish business activities combined with a stable operating environment in Germany

Factors that could lead to a downgrade

A rating downgrade may occur if:

- » TAG is unsuccessful in diversifying its funding sources, thus failing to enhance its unencumbered asset base
- » TAG engages in an aggressive growth strategy in Poland, including large exposure to development activities that are not prudently funded
- » Moody's-adjusted debt/assets increases towards 50% or fixed-charge coverage falls to levels below 2.75x on a sustained basis
- » overall liquidity of the group were to materially deteriorate
- » property market fundamentals weaken sharply in both German and Polish jurisdictions

Profile

TAG Immobilien AG owns and manages a large and diversified multifamily German residential rental portfolio, of about 84,525 units as of 31 March 2024, mainly located in the east and north of Germany. The company entered the Polish market via the acquisitions of the developers Vantage Development SA in 2019 and ROBYG S.A. in 2022. As of 31 March 2024, TAG's total gross asset value amounted to around €6.6 billion, out of which €5.5 billion was in Germany.

Headquartered in Hamburg, TAG is listed in the MDAX at the Frankfurt Stock Exchange. TAG had a market capitalisation of around €2.6 billion as of 5 June 2024. It represents a -22% discount to its reported EPRA net tangible assets and is among the lowest within rated German residential peers.

Detailed credit considerations

Rising interest rates reduce debt capacity, but outlook is moderately improving

In Germany, the valuation outlook for the multifamily residential sector is showing favourable progress relative to 2023, illustrated by more widespread expectations for valuations to stabilise by the second half of 2024. This expectation of stabilisation is buoyed by enduringly strong fundamentals, which in turn underpin high occupancy rates and solid rental growth, both supportive for a gradual resurgence of the investment transaction market. This resurgence will likely enable higher disposal activity, thereby enhancing the strategic options of our rated German residential companies, such as TAG, to manage debt repayments and refinancing needs while helping stabilise leverage ratios.

However, negative pressure on the sector could prevail, particularly in a scenario of sustained subdued property transaction volumes.

Exhibit 5
Large value corrections of German residential properties already occurred in H2 2022 to H1 2023

Source: Moody's Ratings based on companies' reports

Overall the credit quality of the sector remains buoyed by favourable long-term fundamentals, which support high occupancy rates and rental growth. The decrease in construction activity is likely to exacerbate the already limited supply of affordable housing. Simultaneously, demographic shifts and higher mortgage rates are likely to sustain high rental demand.

Diversified portfolio with broadly stable vacancy and moderating rental growth, partially located in economically weaker regions of Germany

TAG has a very diversified portfolio of around 84,525 units concentrated outside the largest cities in Germany. TAG focuses on affordable housing, which is mainly reflected in its relatively moderate rents in a portfolio that generates a higher yield on value than those of some of its residential peers.

Around two-thirds of TAG's residential units are located in around 30 cities with more than 20,000 inhabitants, although some are suburbs of larger urban areas. A small share of the portfolio is located in cities with smaller populations. Therefore, overall, the portfolio will benefit from the urbanisation trend and structural undersupply of housing units in Germany.

About 75% of TAG's properties are located across three federal states in Eastern Germany (Berlin, Saxony and Thuringia), which are economically weaker regions in terms of purchasing power. GDP or unemployment trends in those regions, however, have not underperformed national averages. Combined with a relatively good rent affordability on a portfolio level, TAG's ability to pick the right assets and locations will be a key driver of further rental growth and vacancy rate reduction. TAG's vacancy rate was 4.4% as of 31 March 2024, down from 5.6% as of 31 December 2020.

Exhibit 7

TAG has one of the highest vacancy rates among German rated residential peers

Source: Moody's Ratings based on companies' reports

The German rental market is highly regulated — reletting rents and rent increases for existing tenants are capped with reference to a local index (Mietspiegel) calculated by local authorities, reflecting the location and quality of the units. Rent increases are mostly capped at 15% over a period of three years (5% a year; allowance made for modernisation, the cap on which is 8% per year). From a longer-term perspective, prices and rents for residential properties have been more stable in Germany than in any other large developed economy even after taking into account recent value corrections.

TAG's rents are lower than those of its peers, and remain affordable compared with average household incomes. Nevertheless, affordability fluctuates in tandem with the absolute amount of household income, which exposes lower-income households in particular to higher rental cost-to-income ratios. Affordability has clearly declined in the past five years in Germany as a whole, with rental growth exceeding income growth, resulting in social pressure to increase regulation.

TAG's rental growth has recovered to historical levels and was 2.4% in Q1 2024. TAG's capital spending was lower than peers, which contributed to lower rental growth. Still we expect rental growth to improve to levels of around 3%.

Exhibit 8

TAG has one of the lowest like-for-like rental growth rates among German rated residential peers

Source: Moody's Ratings based on companies' reports

Positive momentum fueling earnings contribution of TAG's Polish business

TAG entered the Polish residential property market with the acquisition of Vantage Development S.A., a formerly listed Polish residential real estate developer, in November 2019. At year-end 2021, TAG agreed to purchase ROBYG S.A, the largest Polish residential developer. Over time, TAG intends to reduce the developments earmarked to sell and increase developments for its own balance sheet. TAG's land bank allows for future projects that can produce more than 20,000 units.

Housing market dynamics continue to be strong on the back of favourable fundamentals and socio-demographic trends, supporting high demand, combined with a still-limited number of new constructed apartments coming to the market and lagging supply¹, fuelling sustained price increases. Sales prices in the Polish residential market grew strongly in 2023 by around 10%-15%. According to market research by JLL, in Q1 2024, sales prices already increased on average by low- to mid-single-digit percentages quarter on quarter. From the company's discussions with broader market participants, the expectation of sales prices to grow could be up to 10% in 2025. Over the next 12-18 months, demand will likely be further supported by another government's subsidised loan scheme.

TAG has already started benefiting from its strategic diversification into Poland, in both development and rental markets. In Q1 2024, TAG sold 636 residential units after having sold 3,586 units in 2023 (compared with 2,389 units in 2022). In the rental market business, Poland benefits from the influx of refugees and immigrants, growing number of households and real income growth, which contributes to strong demand for rental units. The growing geographic presence in an unregulated residential market compared with Germany could introduce earnings and valuations volatility. However, this is balanced by the solid economic backdrop of Poland and strong demand for residential-for-rent units because of a structural undersupply.

Exhibit 9

From Q4 2022, sales volumes and commitments have picked up in Poland [1][2]

[1] Constant exchange rate PLN/EUR of 0.22.

[2] TAG's gross sales from Q1 2020 to Q1 2022 only include Vantage; from Q2 2022 onward, gross sales include contributions of both Vantage and ROBYG.

Sources: Company data from TAG and ROBYG

High interest rate environment exerts negative pressure on fixed-charge coverage and leverage credit metrics

TAG demonstrated over the past months its ability to shore up its capital structure after the large acquisition volume in connection with its expansion into the Polish residential market. The company fully repaid the bridge loan used to finance the acquisition of ROBYG S.A. before its due date in January 2024 (€650 million was initially drawn down), repaid €25 million outstanding commercial papers and extended the maturity of its revolving credit facilities while also topping up its committed amounts.

The measures undertaken by the company included a rights issue last year (€202 million gross proceeds), an ongoing disposal programme that has resulted in net cash proceeds of €333 million year to date since 2022, and the cancellation of dividend distributions on earnings generated in 2022 and 2023. Still, the tighter funding conditions and their negative impact on investment activity and valuations in the German residential market put pressure on our rated issuers to reduce leverage and proactively address refinancing needs.

Between October 2022 and December 2023, TAG signed €458 million bank loans to support upcoming refinancing needs. Average interest cost on total debt remained stable at around 2.2%. We expect Moody's-adjusted fixed-charge coverage to remain solid in the range of 3.5x-4.0x in the next 12-18 months on the back of competitive margins for secured debt and strong earnings generation, especially with the handover of units sold in 2023 from 2025 onward. Moody's-adjusted net debt/EBITDA is projected to decrease to around 9.0x by year-end 2024.

We expect TAG to proactively manage its largest bond maturity of €470 million convertible due in August 2026. Moody's-adjusted debt/gross assets is likely to be in the 46.0%-48.0% range in the next 12-18 months.

Given the negative pressure from higher interest rates on fixed-charge coverage and leverage levels, similar to its peers, we expect TAG to remain focused on proactively managing its refinancing activities and building a liquidity buffer, more so considering tightening unencumbered property in Germany. A solid long-standing relationship with a very granular pool of German banks, together with the expected positive earnings development of its Polish business, should support the company's refinancing activities.

Exhibit 10

We expect credit metrics to remain commensurate with Baa3 rating profile

Sources: Moody's Financial Metrics™ and Moody's Ratings forecasts

High reliance on secured funding reduces financial flexibility and unencumbered assets pool

TAG maintains one of the lowest unencumbered assets ratio among German residential peers, with a ratio of 28.1% as of 31 March 2024, equivalent to an unencumbered assets pool of €1.9 billion mostly concentrated in Poland. While most of the unencumbered properties are concentrated in Poland, around 41% of Polish unencumbered properties are income-generating build-to-hold properties.

TAG maintains a largely secured funding mix with secured debt, representing 69% of gross debt as of 31 March 2024. Secured bank loans have no financial covenants and represent most of upcoming debt maturities in 2024-25. We expect TAG to roll over and potentially top up upcoming bank loan maturities, which will lead to Moody's-adjusted secured debt/gross assets in the range of 30.0%-33.0% in the next 12-18 months.

In this context, TAG aims for a gradual rebalancing of its funding sources across secured and unsecured, as conditions in the bond markets have improved.

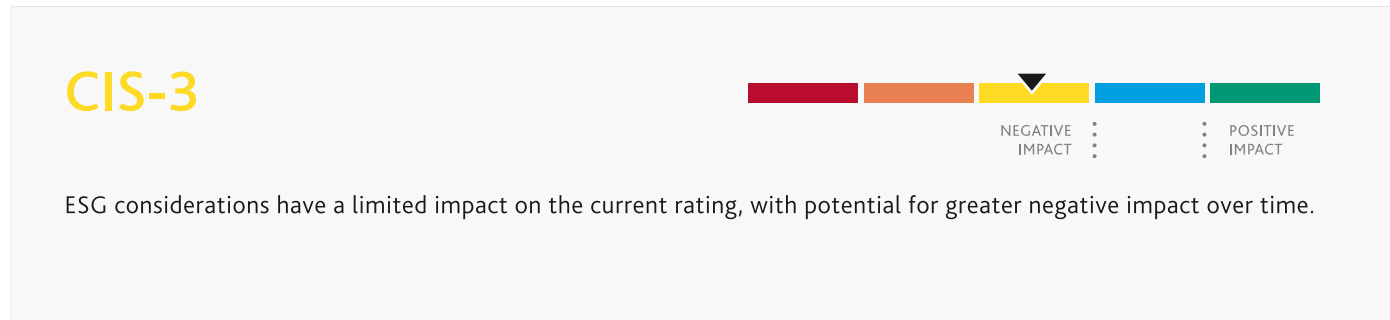

Lower leverage and an expanded unencumbered asset pool from either a growing portfolio of newly built income-generating properties in Poland or gradual replacement of secured debt on German properties through unsecured borrowings would increase the company's financial flexibility and bolster its investment-grade rating.

ESG considerations

TAG Immobilien AG's ESG credit impact score is CIS-3

Exhibit 11

ESG credit impact score

Source: Moody's Ratings

The **CIS-3** reflects a moderate exposure to carbon transition risk through investment requirements as well as regulatory risks due to social considerations. Higher business and financial risks stemming from the company's development activities are balanced by TAG's demonstrated ability to shore up its capital structure and manage liquidity needs.

Exhibit 12

ESG issuer profile scores

Source: Moody's Ratings

Environmental

E-3: TAG, alongside the German residential sector, is moderately exposed to carbon transition risk through increasing investment requirements to improve the energy performance of its buildings from a regulatory, investors and tenant perspective. The company has identified a tangible path to net-zero carbon emissions but will need to increase spending to meet its targets.

Social

S-3: TAG is moderately exposed to social risk arising from affordable living requirements and rental regulation. It affects rental growth potential for companies in the sector and interferes with investment requirements due to environmental regulation. Companies in the sector are also exposed to moderate customer relationship risk through the handling of sensitive private individual data.

Governance

TAG's **G-3** reflects higher business and financial risks stemming from the company's development activities in Poland, which are balanced by TAG's demonstrated ability to refinance and manage liquidity risk, while shoring up its capital structure after the large acquisition volume in connection with its expansion into the Polish residential market.

ESG Issuer Profile Scores and Credit Impact Scores for the rated entity/transaction are available on Moody's.com. In order to view the latest scores, please click [here](#) to go to the landing page for the entity/transaction on MDC and view the ESG Scores section.

Liquidity analysis

Solid liquidity supported by TAG's prudent financial policy and capital allocation, and long-standing relationships with a granular pool of German financial institutions

We expect TAG to maintain good liquidity in the next 12-24 months. As of March 2024, the company had access to €185 million available cash and cash equivalents, €245 million undrawn committed revolving credit facilities (RCF) and a pool of €1,973 million unencumbered assets (mostly located in Poland with around 41% income-generating rental properties).

Together with funds from operations of around €260 million, net proceeds from disposals in the German rental and Polish development businesses, and assuming the company can successfully rollover upcoming bank loan maturities as a result of its long-standing relationships with several German banks, TAG can comfortably cover its total capital spending (including some moderate Polish land bank purchases) of up to €400 million (out of which up to €344 million relate to the Polish development business and are financed with customer prepayments), upcoming bond maturities of around €150 million, and some other moderate discretionary cash outflows. In line with the company's announcement, we do not expect any dividend distributions in 2024.

Other than the large bank loan maturities (around €192 million in 2024 and €320 million in 2025), the company has a well-staggered debt maturity profile, with PLN100 million bond (equivalent to €23 million) due in December 2024, a €125 million bond due in June 2025 and a PLN110 million bond (equivalent to €26 million) due in December 2025.

Exhibit 13
Debt maturities as of 31 March 2024

Methodology and scorecard

The principal methodology used for TAG's rating is REITs and Other Commercial Real Estate Firms with data as of 31 March 2024.

The scorecard-indicated outcome for the 12 months that ended 31 March 2024 and our 12-18-month forward view are one notch below the assigned rating. TAG's strong operating performance, prudent financial policy and commitment to further reduce leverage and increase unencumbered asset base are weighing positively on the assigned rating.

MOODY'S CREDIT RATINGS, ASSESSMENTS, OTHER OPINIONS AND MATERIALS ARE NOT INTENDED FOR USE BY ANY PERSON AS A BENCHMARK AS THAT TERM IS DEFINED FOR REGULATORY PURPOSES AND MUST NOT BE USED IN ANY WAY THAT COULD RESULT IN THEM BEING CONSIDERED A BENCHMARK.

All information contained herein is obtained by MOODY'S from sources believed by it to be accurate and reliable. Because of the possibility of human or mechanical error as well as other factors, however, all information contained herein is provided "AS IS" without warranty of any kind. MOODY'S adopts all necessary measures so that the information it uses in assigning a credit rating is of sufficient quality and from sources MOODY'S considers to be reliable including, when appropriate, independent third-party sources. However, MOODY'S is not an auditor and cannot in every instance independently verify or validate information received in the credit rating process or in preparing its Materials.

To the extent permitted by law, MOODY'S and its directors, officers, employees, agents, representatives, licensors and suppliers disclaim liability to any person or entity for any indirect, special, consequential, or incidental losses or damages whatsoever arising from or in connection with the information contained herein or the use of or inability to use any such information, even if MOODY'S or any of its directors, officers, employees, agents, representatives, licensors or suppliers is advised in advance of the possibility of such losses or damages, including but not limited to: (a) any loss of present or prospective profits or (b) any loss or damage arising where the relevant financial instrument is not the subject of a particular credit rating assigned by MOODY'S.

To the extent permitted by law, MOODY'S and its directors, officers, employees, agents, representatives, licensors and suppliers disclaim liability for any direct or compensatory losses or damages caused to any person or entity, including but not limited to by any negligence (but excluding fraud, willful misconduct or any other type of liability that, for the avoidance of doubt, by law cannot be excluded) on the part of, or any contingency within or beyond the control of, MOODY'S or any of its directors, officers, employees, agents, representatives, licensors or suppliers, arising from or in connection with the information contained herein or the use of or inability to use any such information.

NO WARRANTY, EXPRESS OR IMPLIED, AS TO THE ACCURACY, TIMELINESS, COMPLETENESS, MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OF ANY CREDIT RATING, ASSESSMENT, OTHER OPINION OR INFORMATION IS GIVEN OR MADE BY MOODY'S IN ANY FORM OR MANNER WHATSOEVER.

Moody's Investors Service, Inc., a wholly-owned credit rating agency subsidiary of Moody's Corporation ("MCO"), hereby discloses that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by Moody's Investors Service, Inc. have, prior to assignment of any credit rating, agreed to pay to Moody's Investors Service, Inc. for credit ratings opinions and services rendered by it. MCO and Moody's Investors Service also maintain policies and procedures to address the independence of Moody's Investors Service credit ratings and credit rating processes. Information regarding certain affiliations that may exist between directors of MCO and rated entities, and between entities who hold credit ratings from Moody's Investors Service, Inc. and have also publicly reported to the SEC an ownership interest in MCO of more than 5%, is posted annually at www.moody's.com under the heading "Investor Relations — Corporate Governance — Charter Documents - Director and Shareholder Affiliation Policy."

Moody's SF Japan K.K., Moody's Local AR Agente de Calificación de Riesgo S.A., Moody's Local BR Agência de Classificação de Risco LTDA, Moody's Local MX S.A. de C.V., I.C.V., Moody's Local PE Clasificadora de Riesgo S.A., and Moody's Local PA Calificadora de Riesgo S.A. (collectively, the "Moody's Non-NRSRO CRAs") are all indirectly wholly-owned credit rating agency subsidiaries of MCO. None of the Moody's Non-NRSRO CRAs is a Nationally Recognized Statistical Rating Organization.

Additional terms for Australia only: Any publication into Australia of this document is pursuant to the Australian Financial Services License of MOODY'S affiliate, Moody's Investors Service Pty Limited ABN 61 003 399 657AFSL 336969 and/or Moody's Analytics Australia Pty Ltd ABN 94 105 136 972 AFSL 383569 (as applicable). This document is intended to be provided only to "wholesale clients" within the meaning of section 761G of the Corporations Act 2001. By continuing to access this document from within Australia, you represent to MOODY'S that you are, or are accessing the document as a representative of, a "wholesale client" and that neither you nor the entity you represent will directly or indirectly disseminate this document or its contents to "retail clients" within the meaning of section 761G of the Corporations Act 2001. MOODY'S credit rating is an opinion as to the creditworthiness of a debt obligation of the issuer, not on the equity securities of the issuer or any form of security that is available to retail investors.

Additional terms for India only: Moody's credit ratings, Assessments, other opinions and Materials are not intended to be and shall not be relied upon or used by any users located in India in relation to securities listed or proposed to be listed on Indian stock exchanges.

Additional terms with respect to Second Party Opinions (as defined in Moody's Investors Service Rating Symbols and Definitions): Please note that a Second Party Opinion ("SPO") is not a "credit rating". The issuance of SPOs is not a regulated activity in many jurisdictions, including Singapore. JAPAN: In Japan, development and provision of SPOs fall under the category of "Ancillary Businesses", not "Credit Rating Business", and are not subject to the regulations applicable to "Credit Rating Business" under the Financial Instruments and Exchange Act of Japan and its relevant regulation. PRC: Any SPO: (1) does not constitute a PRC Green Bond Assessment as defined under any relevant PRC laws or regulations; (2) cannot be included in any registration statement, offering circular, prospectus or any other documents submitted to the PRC regulatory authorities or otherwise used to satisfy any PRC regulatory disclosure requirement; and (3) cannot be used within the PRC for any regulatory purpose or for any other purpose which is not permitted under relevant PRC laws or regulations. For the purposes of this disclaimer, "PRC" refers to the mainland of the People's Republic of China, excluding Hong Kong, Macau and Taiwan.
